

SULF 396 XL

ArmorTech®

POWERFUL SULFENTRAZONE HERBICIDE

PRODUCT INFO

- » Active ingredient: 39.6% Sulfentrazone
- » Sulfentrazone launches a two-pronged attack against troublesome sedges with above-ground foliar control and tuber interaction below the soil
- » Sulfentrazone is a Protox inhibitor enabling quick control of sedges and many other weeds
- » Can be used on established cool-season and warm-season turfgrass
- » Compare to Dismiss® Herbicide
- » Applied in early spring, late summer and fall
- » Labeled for use on golf course fairways and roughs, residential and commercial lawns, athletic fields, sod farms, and other areas
- » Available in 4 x 1 gallon jugs, 12 x 6 oz bottles

SELECTIVE WEED CONTROL AGAINST:

- SEDGES
- GRASSY WEEDS
- BROADLEAF WEEDS
